## **KNIGHT REWARDED FOR ACHIEVEMENTS**

Brian Knight is 2017's recipient of the Agri Machinery Trade Excellence Award, in recognition of his unique contribution to the design and development of sprayers.

The award, presented by leading industry website Agri Machinery News, was presented – appropriately enough – beside Concorde, another product of great and innovative engineering.

Brian was nominated for the award by Mike Huntington, who has worked as a member of Knight Farm machinery's sales force for many years, and comments:

"I have known Brian for many years and have always been impressed by his depth of knowledge and practical engineering skills.

"Over those years he has invented a number of innovations that have helped users of both Knight Sprayers and cultivation equipment achieve

better quality, more effective operations – exactly what every agricultural engineer should aspire to do!”

Paul Counce, publisher of Agri Machinery News, said the awards aimed to reward people who had made unique contributions to the development of farm machinery and who epitomised the British flair for innovative design and engineering.

Brian is pictured receiving the award from Mike, watched by sponsors Stewart Good (left) and Brian Warbrick from Aldermore Group PLC, a specialist lender and savings bank, in front of Concorde at Manchester Airport.
